Matching Grant and our Nursery School

Dear Sponsors and Friends,

Thank you so much for your support of your sponsored girl(s) and the BEADS programs. Your donations have enabled us to give our girls at the BEADS High School a quality education. Thank you all.

We are pleased to announce that we have received a \$50,000 match towards our remaining needs for the BEADS for Ed High School.

Dining Hall which will also be our assembly hall/theater	- \$60,000
Staff housing for our 2 cooks, 2 night watchmen and greenhouse keeper.	- \$30,000
Science Laboratory and Supplies	-\$45,000
Class rooms (2)	
Well to provide water for the high school and local community.	- \$75,000

We have drilled and found water. We still need to metal case the well and install a generator, pump and housing for both.

Each sponsored girl who finishes high school through your sponsorship, volunteers to teach nursery through class 2 before she is eligible for college. This is a great experience for the high school grads which gives them their first opportunity to be responsible for themselves, plan their own schedule, develop curriculum and learn good reporting skills. Our past interns comment that they are the most prepared students when they enter their first year of college.

The closest elementary school is a two hour walk (one way) for our local community and they are thrilled to attend the BEADS nursery/class 1 school.

BEADS interns build a train for the unit on transportation. Great fun.

Teaching Interns use our extensive library for reading classes.

The primary school students now have library cards and check out books to take home. We have the only library I have seen in Kenya stocked with great literature from pre-reading though adult literature.

Thank you for all your support to make the girls' dreams a reality.

Together we are changing lives, one girl at a time.
